Mathematical Operations　　　　　　　Name: _____

Operation #1 _____

How many operands:　unary　/　binary

Language of the operands:

_____

_____

_____

Language of the output:

_____

_____

What **Rules** does the operation follow? (How does it turn operands into output?)

_____

_____

_____

Operation #2 _____

How many operands:　unary　/　binary

Language of the operands:

_____

_____

_____

Language of the output:

_____

_____

What **Rules** does the operation follow? (How does it turn operands into output?)

_____

_____

_____
