

### Fraction Puzzlers: Part 4

Get as close to 0 as you can (without actually reaching it) using 1 through 6 once each. Try a bunch of approaches!

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 0$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 0$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 0$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 0$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 0$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 0$$

1 2 3 4 5 6
