

Fraction Puzzlers: Part 5

Get as close to 1 as you can (without actually reaching it) using 1 through 6 once each. Try multiple approaches!

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 1$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 1$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 1$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 1$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 1$$

1 2 3 4 5 6

$$\frac{\square}{\square} \square \frac{\square}{\square} \square \frac{\square}{\square} \approx 1$$

1 2 3 4 5 6
