| I Name |  |  |  |

Calculate the average temperature for each season in both locations.

| Location   | Winter | Spring | Summer | Fall |
|------------|--------|--------|--------|------|
| North Pole |        |        |        |      |
| South Pole |        |        |        |      |

| Which seasons are the most unusual, interesting, or surprising? |              |  |
