

Which Unit: Age Part 1

Name _____

Mr. Byrd's age is 341,640. But which unit of measurement makes most sense? *It's not years!*
(Stop once you've found a reasonable answer!)

What if it's months? Convert 341,640 months to years.

What if it's days? Convert 341,640 days to years.

What if it's hours? Convert 341,640 hours to years.

What if it's minutes? Convert 341,640 minutes to years.

What if it's seconds? Convert 341,640 seconds to years.

Mr. Byrd is about _____ years old!
